

Graduate Software Developer / Analyst

UK-Scotland-Livingston

Title	Graduate Software Developer / Analyst
Business Name	Savantech Limited
Function	Technical
Location Details	Livingston, West Lothian, Central Scotland
Contract Type	Permanent
Job description	Graduate Software Developer / Analyst required to join a small established company with significant growth potential. Software services and product development using Microsoft Development tools (Primarily C#, SQL Server, ASP.Net, MVC, WPF).

Savantech's core business is semiconductor factory automation, with significant additional development and maintenance business in other sectors. This builds on the ability, fostered in semiconductor automation, to rapidly produce bespoke but robust, cost effective and maintainable solutions. Our reputation is excellent and maintaining the very highest standards of quality is the fundamental factor in ensuring our ongoing success.

You will require a software engineering focus, the ability to take the initiative and a proactive, motivated attitude. Excellent communication skills are also highly desirable. The role will be largely office-based, although there may be very occasional requirements to travel.

The successful candidate can look forward to working in a friendly and flexible environment where individual skills are recognized and the contributions of all highly valued.

Experience & Qualifications

Experience required:

A Software Engineering or Software Development degree is essential, ideally including exposure to the Microsoft development toolset – Visual Studio and the .NET framework, especially using C#. Experience with database programming - SQL Server by preference – will also be beneficial.

Analytical skills and problem solving will be key to your role at Savantech. We are also keen to recruit someone who can demonstrate an enthusiasm to contribute new ideas and knowledge to all projects.

Qualifications:

A degree or equivalent in a Software, Engineering or related scientific discipline.

Package & Benefits

Salary
£22-25,000

Following a 3-month probationary period, applicants will receive a **benefits package** including:-

- Contributory Pension scheme, with **6% company contribution**;
- 20 days paid holiday +11 (floating) public holidays, with an additional day for each year worked during the first five years of employment.

Salary Min 22000
Salary Max 25000

Shift Working	No
Travel Required	Occasional. We have customers in UK, EU and USA.
Work Pattern	Full Time (37.5 hours per week)
